## EXPERIENCE

### SOFTWARE ENGINEER/PM – GatherBoard – Missoula, MT

Sept 2017 - Present

- Serve as software engineer and project manager for cross platform mobile app, managing a small team of developers.
- Utilize Angular and the Ionic Framework to build out mobile platform for event curation/sharing service.
- Integrate system data into mobile app to communicate with native device features (i.e. geolocation, push notifications, etc).
- Develop UI designs and mockups to be implemented throughout dev cycle.

### SOFTWARE ENGINEER – Orbital Shift – Missoula, MT

Jan 2017 - Present

- Built and deployed the Orbital Shift Employee App and the Orbital Shift Punch Clock App using the Ionic Framework.
- Handle authentication, session persistence and UI/UX design for Android/iOS.
- Utilize GPS geolocation APIs to detect if user is at pre configured location.
- Build and maintain API, using MS SQL Server and Web API 2 for GET/POST/PUT methods to modify and view user and business data.

### SOFTWARE ENGINEERING INTERN – ESPN – Bristol, CT

Sept 2016 - Nov 2016

- Built network configuration tool for ESPN's BottomLine service using Node, Express, jQuery and Handlebars.
- Constructed testing suite utilizing Mocha, Chai and Nightwatch, testing for data validation and UI functionality.
- Wrote test scripts for ESPN.com, reviewed pull requests and performed quality assurance automation in test-driven dev environment.
- Worked with diverse teams of engineers within the Bristol office and with dozens of contractors throughout the world.

### IT CONSULTING INTERN – Advanced Technology Group – Missoula, MT

May 2016 - Aug 2016

- Successfully implemented a billing system for a large software company, utilizing Aria Billing, RESTful services and APIs to modify business data.
- Performed quality assurance testing, project management and software demos for various client employees.
- Responsible for writing, testing and verifying use case for various clients.
- Constructed an internship program for local high school students which serves a handful of promising high school students in the Missoula area.
